Ours to Hack and to Own Trebor Scholz, Nathan Schneider, 2017 With the rollback of net neutrality, platform cooperativism becomes even more pressing: In one volume, some of the most cogent thinkers and doers on the subject of the cooptation of the Internet, and how we can resist and reverse the process.

Better Work Together Anthony Cabraal, Susan Basterfield, Richard D. Bartlett, Douglas Rushkoff, Kate Beecroft, Lucy Carter, Sandra Chemin, Charley Davenport, John Gieryn, Alanna Irving, Nick Laurence, Sandra Otto, Francesca Pick, Gina Rembe-Stevens, Chelsea Robinson, Damian Sligo-Green, Hannah Smith, Lucas Tauil de Freitas, Phoebe Tickell, Joshua Vial, Doris Zurr, 2019 The future of working together has arrived. A radically different workplace is possible. We can build organisations that change lives, and grow resilient, committed, self-managing teams. If you are curious about how the power of community can transform the way business works, and has the potential to change the world, this book is for you.--back cover.

A Future Untold Alina Siegfried, 2021-10-27 Why can't you understand those people who think so differently from you? Why have we failed to meaningfully address climate change despite 40 years of clear climate science? Why are so many of our systems of social support failing us? At the root of the answers to these questions lies the extraordinary power of story. The world is built upon stories - stories we believe about ourselves and others, narratives about "the way things are", and myths that define our relationship to the world around us. Many of the stories and narratives that we subconsciously believe have led us down the dark path to rising inequality, food insecurity, unprecedented levels of polarisation, and ecological instability on a planetary scale. And because it was us - humans - who collectively authored these stories, it is us who have the power to change them. An entertaining and inspiring rallying cry, *A Future Untold* urges us to return to the most fundamental driver of human behaviour and culture setting - story. Drawing heavily from her experience in environmental advocacy, activism, political communications, spoken word, and the entrepreneurial sector, New Zealand National Poetry Slam champion Alina Siegfried (AKA Ali Jacs) translates the fundamentals of narrative change into authentic stories, entertaining anecdotes, new myths for humanity, and a handful of powerful poems to provide a call to action for everyday citizens who believe that we can build a better future together.

Peer to Peer Michel Bauwens, Vasilis Kostakis, Alex Pazaitis, 2019-03-20 Not since Marx identified the manufacturing plants of Manchester as the blueprint for the new capitalist society has there been a more profound transformation of the fundamentals of our social life. As capitalism faces a series of structural crises, a new social, political and economic dynamic is emerging: peer to peer. What is peer to peer? Why is it essential for building a commons-centric future? How could this happen? These are the questions this book tries to answer. Peer to peer is a type of social relations in human networks, as well as a technological infrastructure that makes the generalization and scaling up of such relations possible. Thus, peer to peer enables a new mode of production and creates the potential for a transition to a commons-oriented economy.

Living Networks Ross Dawson, 2003 This text examines how the rise of business connectivity and integration is transforming how companies work and achieve success. The author advocates clear leadership as he goes on to provide a framework for developing a strategy for a flow economy.

Collective Intelligence in Open Policymaking Rafał Olszowski,

Uberworked and Underpaid Trebor Scholz, 2016-12-05 This book is about the rise of digital labor. Companies like Uber and Amazon Mechanical Turk promise autonomy, choice, and flexibility. One of network culture's toughest critics, Trebor Scholz chronicles the work of workers in the sharing economy, and the free labor on sites like Facebook, to take these myths apart. In this rich, accessible, and provocative book, Scholz exposes the uncaring reality of contingent digital work, which is thriving at the expense of employment and worker rights. The book is meant to inspire readers to join the growing number of worker-owned platform cooperatives, rethink unions, and build a better future of work. A call to action, loud and clear, *Uberworked and Underpaid* shows that it is time to stop wage theft and crowd fleecing, rethink wealth distribution, and address the urgent question of how digital labor should be regulated and how workers from Berlin, Barcelona, Seattle, and São Paulo can act in solidarity to defend their rights.

Exodus Kevin A Carson, 2021-03-25 1) An account of the shift from Old Left strategies of postcapitalist transition based on organizational mass and hierarchy, and systemic rupture, to strategies based on horizontal organization and the interstitial construction of counter-institutions. 2) A survey of current projects engaged in building counter-institutions within the interstices of capitalism -- or, in the words of the Wobbly slogan, building the structure of the new society within the shell of the old.

From Bitcoin to Burning Man and Beyond John Clippinger, David Bollier, 2014-08-01 What can we learn from Bitcoin and Burning Man about re-inventing money and designing better forms of self-governance? Why are “decentralized autonomous organizations” the next great Internet disruption? *From Bitcoin to Burning Man and Beyond: The Quest for Autonomy and Identity in a Digital Society* explores a new generation of digital technologies that are re-imagining the very foundations of identity, governance, trust and social organization. The fifteen essays of this book stake out the foundations of a new future -

a future of open Web standards and data commons, a society of decentralized autonomous organizations, a world of trustworthy digital currencies and self-organized and expressive communities like Burning Man. Among the contributors are Alex “Sandy” Pentland of the M.I.T. Human Dynamics Laboratory, former FCC Chairman Reed E. Hundt, long-time IBM strategist Irving Wladawsky-Berger, monetary system expert Bernard Lietaer, Silicon Valley entrepreneur Peter Hirshberg, journalist Jonathan Ledgard and H-Farm cofounder Maurizio Rossi. From Bitcoin to Burning Man and Beyond was edited by Dr. John H. Clippinger, cofounder and executive director of ID3, [<http://www.idcubed.org>] and David Bollier, [<http://www.bollier.org>] an Editor at ID3 who is also an author, blogger and scholar who studies the commons. The book, published by ID3 in association with Off the Common Books, reflects ID3’s vision of the huge, untapped potential for self-organized, distributed governance on open platforms. One chapter that inspires the book’s title traces the 28-year history of Burning Man, the week-long encampment in the Nevada desert that have hosted remarkable experimentation in new forms of self-governance by large communities. Other chapters explore such cutting-edge concepts as: • evolvable digital contracts that could supplant conventional legal agreements; • smartphone currencies that could help Africans meet their economic needs more effectively; • the growth of the commodity-backed Ven currency; and • new types of “solar currencies” that borrow techniques from Bitcoin to enable more efficient, cost-effective solar generation and sharing by homeowners. From Bitcoin to Burning Man and Beyond also introduces the path-breaking software platform that ID3 has developed called “Open Mustard Seed,” or OMS. <https://idcubed.org/open-platform/platform> The just-released open source program enables the rise of new types of trusted, self-healing digital institutions on open networks, which in turn will make possible new sorts of privacy-friendly social ecosystems. (YouTube video on OMS.) <https://www.youtube.com/watch?v=tMCzibfVo3M> “OMS is an integrated, open source package of programs that lets people collect and share personal information in secure, and transparent and accountable ways, enabling authentic, trusted social and economic relationships to flourish,” said Dr. Clippinger. Green Governance Burns H. Weston, David Bollier, 2013-01-21 The vast majority of the world's scientists agree: we have reached a point in history where we are in grave danger of destroying Earth's life-sustaining capacity. But our attempts to

protect natural ecosystems are increasingly ineffective because our very conception of the problem is limited; we treat 'the environment' as its own separate realm, taking for granted prevailing but outmoded conceptions of economics, national sovereignty and international law. Green Governance is a direct response to the mounting calls for a paradigm shift in the way humans relate to the natural environment. It opens the door to a new set of solutions by proposing a compelling new synthesis of environmental protection based on broader notions of economics and human rights and on commons-based governance. Going beyond speculative abstractions, the book proposes a new architecture of environmental law and public policy that is as practical as it is theoretically sound.

Dirty Politics Nicky Hager,2014-08-01 Early in 2014 Nicky Hager was leaked a large number of email and online conversations from Cameron Slater's Whale Oil blog. Many of these were between Slater and his personal allies on the hard right, revealing an ugly and destructive style of politics. But there were also many communications with the prime minister's office and other cabinet ministers in the National Government. They show us a side of Prime Minister John Key and his government of which most New Zealanders are completely unaware. Key has constructed an easy-going and relaxed public image, declaring to the public that 'there's no room for negative campaigning in New Zealand'. The reality is very different. His government has worked hand in hand with Slater and his collaborators in a sustained campaign of personal attacks against their political enemies, a deliberate but hidden strategy to avoid being held responsible for negative campaigning. Dirty Politics continues the story that began in Hager's best-selling book *The Hollow Men*, investigating the way that underhand and deceptive politics poisons the political environment for everyone. If you care about integrity and ethics in politics, then this book will be disturbing but essential reading--Cover.

The Purpose of Capital Jed Emerson,2018-09-24 An exploration of our understanding of the purpose of capital and the cultural, historic and environmental aspects of how we have come to understand the relation between economic, social and environmental components of capital. Offers a vision of capital as a fuel to promote individual freedom in the context of community and Earth.

A Hidden Economy Maria Bargh,2015-11-02 The Māori economy is often defined simply by the contributions of Māori in New Zealand in the areas of farming, fisheries and forestry. This book explores the ways that Māori in the privatised military industry contribute in monetary and non-monetary ways to the Māori economy. Workers in the privatised military industry very rarely, if ever, give interviews about their work or details about their pay. However, this book includes five interviews with Māori who have worked or are still working in the privatised military industry and explores how they articulate

themselves as Māori in the industry, giving a glimpse at this secret world and how Māori operate in it.

Economics of Child Care David M. Blau,1991-09-19 David Blau has chosen seven economists to write chapters that review the emerging economic literature on the supply of child care, parental demand for care, child care cost and quality, and to discuss the implications of these analyses for public policy. The book succeeds in presenting that research in understandable terms to policy makers and serves economists as a useful review of the child care literature....provides an excellent case study of the value of economic analysis of public policy issues. —Arleen Leibowitz, Journal of Economic Literature There is no doubt this is a timely book....The authors of this volume have succeeded in presenting the economic material in a nontechnical manner that makes this book an excellent introduction to the role of economics in public policy analysis, and specifically child care policy....the most comprehensive introduction currently available. —Cori Rattelman, Industrial and Labor Relations Review

Government for the Public Good Max Rashbrooke,2018-09-26 In a time of global political ferment, established ideas are coming under renewed scrutiny. Chief among them is one of the dominant notions of our era: that we should entrust markets with many of the tasks previously carried out by government. In this wide-ranging book, Max Rashbrooke goes beyond anecdote and partisanship, delving deep into the latest research about the sweeping changes made to the public services that shape our collective lives. What he unearths is startling: it challenges established thinking on the effectiveness of market-based reforms and charts a new form of 'deep' democracy for the twenty-first century. Refreshing and far-sighted, this stimulating book offers New Zealanders a new way of thinking about government and how it can navigate the turbulent world ahead. The market is often not the solution to our problems. Markets have often been the problem. Max Rashbrooke makes the convincing case for models of government that work better, as well as those to be more wary of. Greater democracy can bring with it greater equality - but, Rashbrooke warns, democracy itself is imperilled by our current levels of inequality. Fast paced, globally informed and wittily written. - Professor Danny Dorling, Oxford University This book provides a wide range of excellent evidence-based arguments that help counter the oft-dominant small-government ideology of our times. Its defence of democracy, government and voter competence is a story that needs to be told more. - Laura O'Connell Rapira, Director of ActionStation

Good Morning, Beautiful Business Judy Wicks,2013-03-07 It's not often that someone stumbles into entrepreneurship

and ends up reviving a community and starting a national economic-reform movement. But that's what happened when, in 1983, Judy Wicks founded the White Dog Café on the first floor of her house on a row of Victorian brownstones in West Philadelphia. After helping to save her block from demolition, Judy grew what began as a tiny muffin shop into a 200-seat restaurant-one of the first to feature local, organic, and humane food. The restaurant blossomed into a regional hub for community, and a national powerhouse for modeling socially responsible business. Good Morning, Beautiful Business is a memoir about the evolution of an entrepreneur who would not only change her neighborhood, but would also change her world-helping communities far and wide create local living economies that value people and place as much as commerce and that make communities not just interesting and diverse and prosperous, but also resilient. Wicks recounts a girlhood coming of age in the sixties, a stint working in an Alaska Eskimo village in the seventies, her experience cofounding the first Free People store, her accidental entry into the world of restaurateering, the emergence of the celebrated White Dog Café, and her eventual role as an international leader and speaker in the local-living-economies movement. Her memoir traces the roots of her career - exploring what it takes to marry social change and commerce, and do business differently. Passionate, fun, and inspirational, Good Morning, Beautiful Business explores the way women, and men, can follow both mind and heart, do what's right, and do well by doing good.
